

### 7.1.3 Types of degradable and non-degradable waste

#### **Solid Waste Management:**

- To reduce waste at institute students and staff are educated on proper waste management practices through lectures, advertisement on notice boards, displaying slogan boards in the campus.
- Waste is collected on daily basis from various sources and is separated as dry and wet waste.
- Colour coded dustbins are used for different types of wastes. Blue for paper, Green for glass , Yellow for plastic and Red for metals.

#### **Liquid Waste Management:**

- Liquids are diluted by getting mixed with washrooms and toilet liquid wastes into the common drainage.

#### **Biomedical waste management**

- Not uploaded

#### **E-Waste Management:**

- E-waste collected is stored in store rooms and disposed every year accordingly.
- Old monitors and C.P.Us are repaired by our technician and reused.
- Empty toners , cartridges , outdated computers and electronic items are sold as scrap to ensure their safe recycling.

#### **Waste recycling system:**

- Efforts have taken to produce compost manure from certain solid waste from other sources and efficiently run by the students . Manure is used for the purpose of herbal garden.

#### **Hazardous chemicals and radioactive waste management**

- Not uploaded

**Solid Waste Management (7.1.3)**

**Waste Recycling System (7.1.3)**
